

# Great Service Has No Shortcuts

**We treat your cargo and supply chain as if it were our own.”**  
 – Liz Lasater, CEO  
 Red Arrow Logistics

**When it comes to the aerospace industry, companies have time sensitive needs that make or break the ability to meet contract manufacturing deliverables and their go-to-market strategies.**

Red Arrow Logistics has an excellent track record of moving high value equipment throughout the U.S. and around the world. Our reputation for on-time delivery makes us a valued partner to ensure that your manufacturing processes and operations are ready to meet the needs of the aerospace customers and partners without interruption.

We encourage you to contact us to find out how we may help you handle shipment and logistics for your projects – however large or small – throughout the world. We understand the need for time sensitive handling of the chain of custody, be it for ITAR products or custom-fabricated materials.

In combat and hazard zones, Red Arrow can provide the necessary security accompaniments to get your goods delivered.

Our projects with the defense, aerospace and federal agencies have involved air, ocean and ground transportation. We have extensive experience shipping in and out of Europe, Asia and North America.

#### Services:

- Just in time fulfillment to reduce inventory costs
- Customized kitting and labeling to increase value to end customer
- Order and replenishment services to help optimize the parts flow from manufacturing
- Supplier scheduling and vendor management to reduce cycle time
- Chain of custody and ITAR compliance
- Door to door visibility for greater control and customer satisfaction
