Benefits of Using a Freight Broker

RedArrow
LOGISTICS

ALLSTATES
WORLD CARGO

Managing freight shipments can be complex and time-consuming, but partnering with a trusted freight broker like Red Arrow Logistics simplifies the process while saving you time and money. Let Red Arrow take the hassle out of shipping so you can focus on growing your business.

► Increased Carrier Options

- Freight brokers have relationships with numerous carriers, providing access to more capacity and equipment options.

► Cost Savings

- Freight brokers often negotiate better rates with carriers due to their high volume of shipments, resulting in cost savings for shippers.

► Reduced Liability

- When using a freight broker, the shipper's liability is reduced, as the broker ensures the cargo is properly handled and delivered.

► Access to Specialized Equipment

- Brokers may have relationships with carriers that offer specialized equipment, such as refrigerated trucks or oversized load capabilities.

► Flexibility and Scalability

- Brokers can quickly adapt to changes in shipping volume or special requirements, ensuring that capacity is available when needed.

► Improved Visibility and Tracking

- Freight brokers often provide advanced tracking and visibility tools, enabling shippers to monitor their shipments in real-time.

► Streamlined Communication

- Freight brokers act as a single point of contact for shippers, simplifying communication and reducing the need to interact with multiple carriers.

WHEN TO CHOOSE A FREIGHT BROKER

- ✓ **Variable Shipping Volumes:** When volumes fluctuate, a freight broker can provide flexibility and scalability.
- ✓ **Specialized Shipping Requirements:** If specialized equipment or services are required, a freight broker may have access to a broader range of options.
- ✓ **Cost Savings:** If cost savings are a priority, a freight broker can try and negotiate better rates with carriers.

WHEN TO CHOOSE AN ASSET-BASED CARRIER

- ✓ **Dedicated Capacity:** If dedicated capacity is required, an asset-based carrier may be a better option..
- ✓ **High-Value or Sensitive Shipments:** An asset-based carrier offers better control and security for shipments requiring specialized handling and equipment.
- ✓ **Long-Term Contracts:** Asset-based carrier may offer more stability and predictability with long-term contracts.
